

STIMULATE

A concentrated blend of soluble kelp and fulvic acid powder

Stimulate contains fulvic acid and three species of kelp in a concentrated, freight-friendly, soluble powder. All components are powerful natural chelating agents and biological promoters. The kelp species have been chosen for their growth promoting properties and ability to improve plant stress-resistance (Laminaria, Sargassum and Ascophyllum nodosum).

Benefits

- Two powerful natural chelating agents.
- Promote growth and plant health.
- Relieve plant stress.
- Promote beneficial soil microbes.

Typical Analysis w/v

- Fulvic Acid 35.00%
- Alginic Acid 9.00%
- Total Nitrogen (N) (as organic) 1.69%
- Total Potassium (K) (as organic) 10.96%
- Sulfur (S) 2.48%
- Magnesium (Mg) 0.98%
- Calcium (Ca) 0.72%
- Iron (Fe) 0.53%
- Solubility > 95%

Storage & Handling

WARNING: Do not swallow. The dust from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin.

Warning: Avoid spillages on floor as product becomes very slippery when mixed with water and may create a hazard. Store in a cool dry area out of direct sunlight. Do not pre-mix or store in diluted form. Seal internal bag immediately after use.

Packaging

- 100 gms
- 10 kg
- 20 kg
