

TSUNAMI

A superior quality wetter/spreader to improve foliar fertiliser response of liquid fertilisers.

Tsunami is a silicon-based super spreader, utilising patented technology for improved foliar fertiliser spray response. Particularly useful for “hard to wet” plant surfaces.

Benefits

- Increased target penetration.
- Helps overcome the problem of beaded droplets on waxy surfaces.
- Silicon-based for improved plant health response.
- High compatibility formulation for a wide range of applications.
- Low product application rates.

Product Properties

- SG 1.0
- pH 7.0 – 8.0
- Appearance Clear liquid

Instructions

Shake or stir well before use. When spray tank is nearly full, and other inputs diluted, add Tsunami . Complete filling tank. Sensitive foliage or plants should be test sprayed prior to full scale application. Ensure suitable spray conditions (e.g. temperature, humidity, wind-speed), prior to foliar application. Compatible with a wide range of fertilisers, however, a jar test should always be carried out first.

Storage & Handling

- Warning: HAZARDOUS. See Safety Directions on label.
- Store locked up in a cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C. Do not pre-mix or store in diluted form. Seal lid/cap immediately after use. Dispose of contents and container in accordance with local and national regulations.

Packaging

- 1 L ○ 5 L ○ 20 L
